EASTER HOLIDAY CLUB

OUR EASTER HOLIDAY CLUB WAS FILLED WITH LAUGHTER, LEARNING, AND LOTS OF EXCITING ACTIVITIES! FROM CREATIVE CRAFTS TO SPORTY CHALLENGES.

A CRACKING TWO WEEKS OF FUN!

LIFE SKILLS

The heart of Raising Explorers is built upon pouring into the children and young people who attend our centre. We value our principles of respect, honesty, kindness and cooperation. The staff are always striving to lead by example, to support and guide each young person that attends to become the very best version of themselves. We seek to implement real life skills in an engaging and lighthearted manner whilst always ensuring the safety of the children.

HOLIDAY CLUB

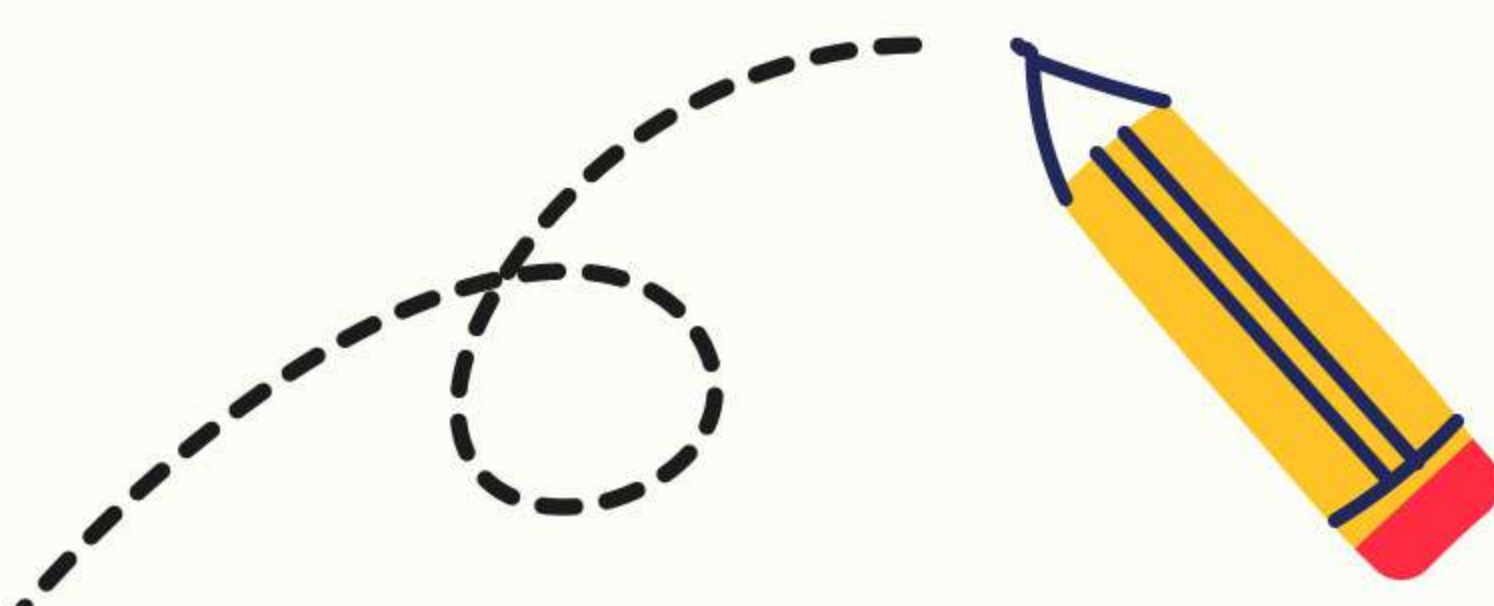

The smell of toast, the crackling of the cereal and the sound of cartoons bounces off the walls as Raising Explorers opens up bright and early for breakfast club. Here at Raising Explorers, the holiday club is jam packed with adventure, excitement and a whole lot of fun.

During the Easter Holidays, the children were thrilled to go on four amazing outings to mini golf, ninja warriors, bowling and cinemas. For many of the children, this was their very first time doing such activities and they were thrilled.

A brilliant example of this would be the pizza making activity we carried out during the easter holidays

CELEBRATING DIVERSITY

Raising explorers celebrates diversity through recognising the uniqueness of cultures, faith and background. We strive to empower the young explorers and their loved ones through the means of celebrating and sharing joy. A very recent example of this is the Eid party that was hosted right here on the **3rd of April 2025**.

ARTS AND CRAFTS

Raising Explorers prides itself in empowering creativity and imagination. Many of the young people that attend eagerly anticipate the arts and crafts activities. From making appreciation cards, to colouring their favourite characters, making finger puppets and paper planes. The fun never seems to stop as the staff breathe life into new ideas inspired by what the children enjoy.

SPOTLIGHT STAR

Meet Arham, a 5 year old, who regularly attends Raising Explorers and is our tech superstar. He enjoys going on the computers and playing video games with his friends. His vibrant personality and sense of humour never fail to make us laugh as he so proudly exclaims "I love Raising Explorers because of the computers and the people."
