"The After School Learning Club"

July Edition 2025

NEWSLETTER

SPOTLIGHT STAR

This month, we're shining our spotlight on **Harun**, a truly exceptional student who goes above and beyond every day. Known for his caring nature and willingness to help others, **Harun** sets a **positive** example across the centre.

Whether it's learning, activities, or behaviour, he always gives **100%**. We're proud to name him our Star of the Month — keep up the amazing work, Harun!

We are incredibly proud of all our young explorers for their fantastic achievements in the recent **SATs**. Their hard work, resilience, and positive attitude truly shone through. Whether it was solving tricky maths problems, showing off their reading skills, or smashing their spelling and grammar, each and every child gave their best – and we couldn't be prouder!

A huge thank you as well to our wonderful staff and **families** for the ongoing support, encouragement, and belief in our children.

END OF TERM PARTY

What better way to end the school year than with a **party**? Our End of Term Celebration was filled with fun games, balloons, and tasty snacks!

The children shared laughs and reflected on the great memories they've made. We also celebrated our Students of the Term — recognised for their hard work, kindness, and positive attitude. Each received a special gift as a thank-you for their **amazing effort**!

SUMMER CAMP - SIX FUN WEEKS OF CHAOS

The team at Raising Explorers has been busy planning **six weeks of summer fun!** Alongside our engaging in-house activities that boost creativity and confidence, we've lined up exciting big trips to **Blackpool, Yorkshire Wildlife Park, Stockeld Park, and Web Adventure Park.**

We're also heading out on local adventures to places like the **Thackray Museum, Tropical World, Laser Zone, Kidz Play, cinemas, and bowling alleys.** It's shaping up to be a summer to remember!

SPOTLIGHT STAR

RESILIENT EXPLORERS

In an ever-changing world, fostering resilience in children is paramount. When we talk about "**Raising Resilient Explorers**," we're envisioning children who are not only curious and eager to discover but also possess the emotional fortitude to navigate challenges, bounce back from setbacks, and adapt to new situations. And that is exactly what Raising Explorers seeks to accomplish.

Malaika is one of **Raising Explorers'** marvellous mathematicians. From conquering the hardest of times tables to solving puzzling word problems, **Malaika** faces each challenge with **charismatic confidence**. As the oldest of all her siblings, she is a natural-born leader who is bold, clear, and, most importantly, kind. She is a true star, and Raising Explorers aims to nurture and strengthen how brightly **she shines.**

TINY FEET, BIG DREAMS!

Our astro turf is still a massive hit – and now its game on at Raising Explorers! We are thrilled to introduce football sessions for our young stars, led by FA qualified coaches Imran Rasool and Ishfaq (Ishy) Hussain.

Whether they are future pros or just love a good kickabout, all kids are welcome! These are the time slots that are available.

🕒 **Thursdays: 5pm – 7pm**

☀️ **Sundays: 11am – 1pm**

☀️ **Sundays: 2pm – 4pm**

All sessions are 1 hour - they are fun, active and tailor made for each child. This helps kids to improve skills, concentration, tactics and more. ⚽️ Mini Messi at home? Call **01274 578746** to book their spot!

SPOTLIGHT STAR

This Month, we are proud to celebrate **Kady** as our **Spotlight Star**! **Kady** is always polite, bringing a warm and jolly energy wherever she goes.

She is incredibly helpful, whether it's supporting her friends, tidying up without being asked, or lending a hand to staff with a big smile. We are so proud to have her as part of our **Raising Explorers** family. Well done, **Kady**!

SPREADING SMILES

At **Raising Explorers**, we believe in nurturing young minds—not just with crayons and storybooks, but with a touch of tech too. Thanks to the incredible generosity of **Enviro Electronics**, we're thrilled to announce that our little explorers now have access to tablets, opening a whole new world of learning and fun. Here's to more curious minds, more giggles, and slightly fewer sticky fingerprints on the screens.
